

GOING THE EXTRA TILE

AT **OCEANSIDE GLASSTILE**, "SMOOTH AS GLASS" ISN'T JUST AN EXPRESSION, IT'S A DESCRIPTION OF THE COMPANY'S SIGNATURE PRODUCT—SOME OF THE FINEST GLASS TILE IN THE WORLD. Approaching its proprietary manufacturing process as fine art, the experts at Oceanside create stunning tiles in small batches, entirely by hand. As versatile as it is gorgeous, Oceanside Glasstile is used outdoors and indoors, in kitchens, bathrooms and fireplaces and in swimming pools, fountains and spas.

In addition to its commitment to the finest quality, Oceanside is a company with a conscience. All of its tile is made from silica sand, an abundant natural resource, and up to 86 percent recycled material. Each year, more than two million pounds of glass from curbside recycling programs is beautifully repurposed, turning erstwhile waste into tile of impeccable taste. For more information, go to www.westsidetile.com.
