**Oceanside Glasstile® Receives
Top ADEX Award for Design Excellence**

Carlsbad, Calif. – March 29, 2006 – Oceanside Glasstile, a world leader in the design and production of hand crafted glass tile, today announced that it received the prestigious Platinum ADEX in the 2005-06 Awards for Design Excellence. Oceanside Glasstile was awarded this top accolade for the product design of its Terrain™ Canopy Liner.

ADEX, which stands for Awards for Design Excellence, is the largest and most prestigious awards program for product design of furniture, fixtures and finishes marketed to the design trade. The 2005-06 ADEX competition brought a record 1,505 product entries. The Platinum Award is given to the highest scoring products in each category, followed by Gold and Silver level awards.

Design Journal, the international trade publication for interior designers, architects and facility managers is a sponsor of the ADEX Awards; Oceanside Glasstile's Terrain Canopy Liner will be featured in the ADEX Winners Issue of *Design Journal* due out in April 2006.

"It's an honor to be recognized internationally for our leadership in glass tile design through this industry award," said John Marckx, executive vice president of Oceanside Glasstile. "With Terrain, we're bringing a unique natural design element to the marketplace. Architects, designers, and homeowners are using it for a variety of projects where they want to bring elements of nature inside, ranging from tranquil residential bathroom spa retreats to relaxed rustic kitchens to commercial settings such as restaurants and hotels."

About Terrain

Oceanside Glasstile's Terrain line of hand crafted glass relief decorative liners and design accents is influenced by Art Deco design and patterned after nature. Terrain features stylized water, foliage and geological patterns that are a striking complement to other natural design materials such as stone, wood, metal, porcelain and ceramic tile. The Canopy liner is an interpretation of the delicate veining on the underside of a leaf.

Terrain includes ten eight-inch liners (Bloom, Canopy, Canyon, Cascade, Pebbles, Ridge, Splash, Stepping Stones, Strata and Traverse) and four coordinating two-inch decos (Bloom, Canopy, Splash, and Strata). The Splash design is also offered as a four-inch field deco in four variations that can be mixed and matched. Terrain coordinates with Oceanside Glasstile's other lines—Casa California®, Haiku™, Minerali™, Ritual™, and Tessera™. Terrain stands out as a consciously crafted green building material, available in 31 colors (the same color palette as Casa California), in both glossy and iridescent finishes.

Oceanside Glasstile is a "green" building product made from silica sand, a renewable resource, and up to 86% recycled glass.

About Oceanside Glasstile

Oceanside Glasstile is a world leader in the design and production of hand crafted glass tile, providing unique and innovative products to the tile, architectural and design industries as well as consumer markets. Oceanside Glasstile pioneered the development of glass tile products, which it markets globally to distributors and showrooms.
