MOSAIC PATTERNS

Travertine stone is available in 7/8"x 7/8", and 7/8"x 1 3/8" to allow you to create custom blends in the patterns below. Harmonia mosaic patterns are face-mounted on paper. Sheet measurements vary depending on pattern. All sizes nominal.

**7/8" x 7/8" (22 x 22mm) Mosaic**  
 Nominal Sheet Size: 12 1/8" x 12 1/8"  
 (308 x 308mm)  
 Shown in Glee Blend

**7/8" x 1 3/8" (22 x 35mm) Straight Set**  
 Nominal Sheet Size: 11 1/8" x 11 1/8"  
 (282 x 282 mm)  
 Shown in Glee Blend

**7/8" x 1 3/8" (22 x 35mm) Offset Joint**  
 Nominal Sheet Size: 11 1/8" x 11 1/8"  
 (282 x 282 mm)  
 Shown in Glee Blend

MOSAIC FIELD

Harmonia is available in 7/8"x 7/8" mosaic field. All sizes and patterns and can be customized using any Muse color and finish in combination with your choice of five travertine blends. **Try our custom blend tool at [www.glasstile.com](http://www.glasstile.com)**

**Levity**  
 Glass: Oxygen Irid, Oxygen Matte  
 Travertine: Cream Blend

**Glee**  
 Glass: Oxygen Irid, Oxygen Matte,  
 Platinum Irid  
 Travertine: Cream Blend

**Revel**  
 Glass: Amber Irid, Henna Irid  
 Travertine: Golden Blend, Light Brown Blend

**Delight**  
 Glass: Clear Irid, Pacific Irid  
 Travertine: Cream Blend, Light Brown Blend

**Gala**  
 Glass: Shadow Irid, Platinum Irid,  
 Pewter Irid  
 Travertine: Grey Blend

**Entice**  
 Glass: Harvest Irid, Truffle Irid  
 Travertine: Dark Brown Blend, Golden Blend

## CURBSIDE TO OCEANSIDE

---

Our products are beginning a new life after serving as things like juice containers, pickle jars and Corona bottles. The glass has been sorted, cleaned and crushed to precise specifications. The recycled glass is combined with raw materials that have been filtered through extensive quality assurance processes. All in all, we are working responsibly to bring you an “up-cycled” product with an absolute commitment to sustainable practices.

## LEED CERTIFICATION

---

Oceanside Glasstile uses more than two million pounds of bottle glass from curbside recycling programs each year. Increased use of recycled materials is a criterion in our ongoing manufacturing improvements that we are able to collaborate on with our glass art center (manufacturing plant), which is just 10 minutes south of the U.S. border. These two elements lend to LEED Points: MRC 4, 4.1 and 4.2 (pertaining to recycled content) and MRC 5, 5.1 and 5.2 (pertaining to location). Artisan heritage dating to the 1960's is wed with two decades of pioneering the green market, the result being authentic design coupled with sustainable manufacturing.

## DEDICATED SERVICES

---

As the manufacturer of such distinctive lines of tile, we stand behind our products with unwavering confidence. Being an innovation leader and expert in glass tile manufacturing we understand the importance of providing the most comprehensive service in order to support your architectural project. We offer the most dedicated and knowledgeable technical services support in the industry. Our team has developed detailed installation instructions that are backed up with personal guidance for both contractors and homeowners at any stage of the construction process. From the original inspiration to the final installation, Oceanside Glasstile delivers seamless service for a gratifying tile experience as you fulfill your own design dreams.

*Feel free to contact our Technical Support team at 877-648-8222 or e-mail at [techsupport@glasstile.com](mailto:techsupport@glasstile.com).*

## NOT ALL GLASS IS CREATED EQUAL

---

Machine made products from overseas proliferate the market, but there are many aesthetic differences between seemingly similar mosaics. Consider these:

*Does the surface finish have iridescence that is an inconsistent “oil slick”, or does it possess a natural, flowing character?  
Does the face of the tile have striated lines that will make it difficult to clean?  
Do the backs of the mosaics have an indentation that shows through the tile?*

Finally, the most important quality is one that cannot be seen by the naked eye. If the glass is not properly cooled (annealed) during manufacturing, it will have a latent stress that can cause cracking or other failures down the road. At Oceanside Glasstile, we do not cut corners or remove steps. We believe beauty and durability go hand-in-hand with the utmost product quality that protects your lasting investment.

## RECYCLED CONTENT

All Oceanside Glasstile is made primarily from silica sand, an abundant natural resource, with many colors also containing recycled content that may include pre-consumer\*, post-industrial\*\*, and/or post-consumer\*\*\* recycled bottle glass from curbside recycling programs. See the chart below for specific content by color.

- \* Pre-consumer materials are generated during our manufacturing process and may consist of scrap and trimmings that were never used in the consumer market.
- \*\* Post-consumer material is an end product that has completed its life cycle as a consumer item and would otherwise have been disposed of as a solid waste. Oceanside Glasstile's post-consumer material is recycled bottle glass (cullet) from curbside recycling programs.

## RECOMMENDED APPLICATIONS AND TEST RESULTS

RECOMMENDED APPLICATIONS :: HARMONIA				
Location		Irid	Non-Irid	Matte
WALLS	Interior	•	•	•
	*Exterior	•	•	•
FLOORS	Interior	•		•
	Exterior			
COUNTERTOPS	Powder Room	•	•	•
	Kitchen			
SUBMERGED				
FLOOR USAGE LEVEL		Heavy Residential	Not Recommended	Heavy Residential

TEST RESULTS :: HARMONIA				
TEST #	TYPE of TEST	Irid	Non-Irid	Matte
C1028	Static Coefficient of Friction	Dry=.77 Wet=.55	Dry=.84 Wet=.45	Dry=.86 Wet=.81
C648	** Breaking Strength	≥350 lbf.		
C424	Cracking Resistance	N/A		
C650	Chemical Resistance	N/A		
C373	Water Absorption	N/A		
C1026	Freeze Thaw Resistance	N/A		

\* Not recommended for exterior use in freeze-thaw climates.  
 \*\* Test is only performed on glass tile.

**NOTE:**

Irid = Iridescent,  
 Non-Irid = Non-Iridescent

**Heavy Residential:**

Residential flooring areas that are subject to normal footwear traffic with occasional amounts of abrasive soil. Some examples would be: halls, kitchens and corridors.
